Product Name: BLUE EXTERIOR DRESSING - 501480 Product identifier: 501480 Revision Date: 03-03-2015 Replaces:

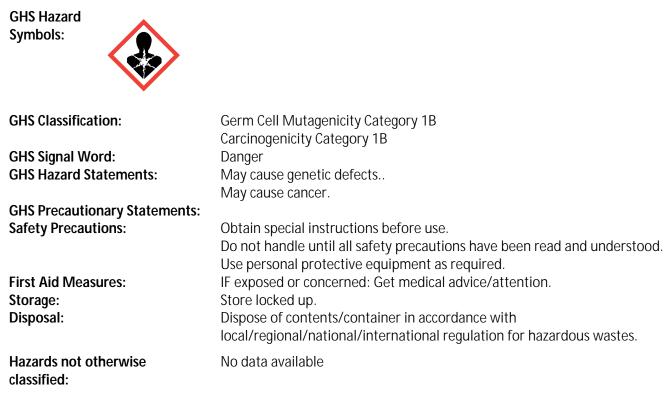

1. Identification

Product Name: Product identifier:	BLUE EXTERIOR DRESSING - 501480 501480
Chemical Manufacturer / Importer:	ITW Evercoat a division of Illinois Tool Works Inc. 6600 Cornell Road Cincinnati, OH 45242 513-489-7600
Emergency telephone number:	CHEMTREC: 1-800-424-9300 CANUTEC: 1-613-996-6666

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

Product Name: BLUE EXTERIOR DRESSING - 501480 Product identifier: 501480 Revision Date: 03-03-2015 Replaces:

3. Composition/information on ingredients

Chemical Component:	CAS number and other unique identifiers	% (or range) of ingredient
Solvent Naphtha (petroleum), light Aliphatic	64742-89-8	3 - 7

the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

4. First-aid measures	
Eye Contact:	Use an eye wash to remove a chemical from your eye regardless of the level of hazard. Flush the affected eye for at least twenty minutes. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical advice after flushing.
Skin Contact:	Wash with soap and water.
Inhalation:	This material does not present a hazard if inhaled. Remove
	individual to fresh air after an airborne exposure if any symptoms develop, as a precautionary measure.
Ingestion:	No hazard in normal industrial use. Do not induce vomiting. Seek
	medical attention if symptoms develop. Provide medical care
	provider with this MSDS.
Immediate medical attention and special treatment needed,:	No additional first aid information available

5. Fire-fighting measures

Suitable extinguishing media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid. Dry chemical Water may be ineffective in fire fighting due the material (or component(s) low flash point, low solvent density, and limited miscibility with water.
Unsuitable extinguishing media:	No data available
Fire and/or Explosion Hazards:	Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire. Mists or sprays may be flammable below its normal flash point.
	Empty containers that retain product residue (liquid, solid/sludge, or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Any of these actions can potentially cause an explosion that may lead to injury or death.

Safety Data Sheet Product Name: BLUE EXTERIOR DRESSING - 501480

Product identifier: 501480 **Revision Date:** 03-03-2015

Replaces.	
Hazardous Combustion Products:	Carbon dioxide, Carbon monoxide, Formaldehyde, Silicon dioxide
Special protective equipment and precautions for fire- fighters:	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the
	potential of hazardous vapors and decomposition products. Flammable component(s) of this material may be lighter than water and burn while floating on the surface.
6. Accidental release measures	
Personal precautions, protective equipment and emergency procedures: Methods and material for containment and cleaning up:	No adverse health affects expected from the clean-up of spilled material. Follow personal protective equipment recommendations found in Section VIII of this MSDS. Shut off ignition sources; including electrical equipment and flames. Do not allow smoking in the area.
7. Handling and storage	
Precautions for safe handling:	No special handling instructions due to toxicity. As with all chemicals, good industrial hygiene practices should be followed when handling this material.
Conditions for safe storage: Materials to Avoid/Chemical Incompatibility::	Store in a cool dry place. Isolate from incompatible materials. Strong oxidizing agents Strong acids Strong alkalies

8. Exposure controls/personal protection

Limits:

Chemical Component	OSHA PEL	ACGIH TLV-TWA	ACGIH STEL
No data available			
Appropriate engineering controls.:	engineering controls are like comfort under normal condi be designed to meet the OSI 1910. Use process enclosure engineering controls to cont	No exposure limits exist for the constituents of this product. No engineering controls are likely to be required to maintain operator comfort under normal conditions of use. Engineering controls must be designed to meet the OSHA chemical specific standard in 29 CFR 1910. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits	
Eye Protection:	Wear safety glasses when handling this product. Wear goggles and a Face shield		
Skin Protection:	5	kin hazard. Where use can resonal hygiene. Wash hands and

	oversed areas with mild seen and water before esting drinking
	exposed areas with mild soap and water before eating, drinking,
	and when leaving work. Where use can result in skin contact,
	practice good personal hygiene. Use of protective coveralls and
	long sleeves is recommended.
Respiratory Protection:	No respiratory protection required under normal conditions of use.
	Follow a respiratory protection program that meets 29 CFR
	1910.134 and ANSI Z88.2 requirements whenever work place
	conditions warrant the use of a respirator. A respiratory protection
	program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2
	requirements must be followed whenever workplace conditions
	warrant a respirator's use
Other Protective Equipment:	Wear goggles and a Face shield Where use can result in skin
	contact, practice good personal hygiene. Use of protective coveralls
	and long sleeves is recommended.
General Hygiene Conditions:	As with all chemicals, good industrial hygiene practices should be
	followed when handling this material.

9. Physical and chemical properties

Appearance (physical state): Color: Odor: Odor threshold:	No data available No data available No data available No data available No data available
pH: Melting Point/Freezing Point (°C): Initial Boiling Point and Boiling Range (°C):	No data available 98
Flash Point (°C):	210
Evaporation Rate:	No data available
Flammability (solid, gas):	No data available
Upper Flammable/Explosive Limit:	No data available
Lower Flammable/Explosive Limit:	1.1
Vapor Pressure:	No data available
Vapor Density:	No data available
Relative Density:	Not determined
Solubility(ies):	Negligible; 0-1%
Partition coefficient: n-octanol/water:	No data available
Auto-ignition Temperature (°C):	No data available
Decomposition Temperature:: Viscosity:	No data available No data available No data available

10. Stability and reactivity

Reactivity: Chemical stability: No data available Stable under normal conditions.

Product Name: BLUE EXTERIOR DRESSING - 501480

Product identifier: 501480 Revision Date: 03-03-2015

Replaces:

Conditions to avoid:	Temperatures above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition. Contamination.
Incompatible materials: Hazardous decomposition products:	Strong oxidizing agents Strong acids Strong alkalies Carbon dioxide Carbon monoxide Formaldehyde Silicon dioxide

11. Toxicological information

Likely routes of exposure	Inhalation, Ingestion, Skin contact, Eye contact
(inhalation, ingestion, skin and	
eye contact):	

Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Irritation:	No hazard in normal industrial use.
Skin Contact:	No hazard in normal industrial use.
Skin Absorption:	No absorption hazard in normal industrial use.
Eye Contact:	Can cause minor irritation, tearing and reddening.
Ingestion Irritation:	No hazard in normal industrial use.
Ingestion Toxicity:	

Long-Term (Chronic) Health Effects:

Carcinogenicity:	None of the substances have been shown to cause cancer in long term animal studies. Not a carcinogen according to NTP, IARC, or OSHA.
Reproductive and	No data available to indicate product or any components present at greater than
Developmental Toxicity:	0.1% may cause birth defects.
Mutagenicity:	No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.
Inhalation:	Upon prolonged and/or repeated exposure, no hazard in normal industrial use.
Skin Contact:	Unlikely to cause irritation even on repeated contact.
Skin Absorption:	Upon prolonged or repeated exposure, no hazard in normal industrial use.

Component Toxicology Data

Chemical Component	Oral LD50	Dermal LD50	Inhalation LC50
No data available			

Has the chemical been classified as a Carcinogen by NTP, IARC or OSHA.

Chemical Name	OSHA Carcinogen	IARC Carcinogen	NTP Carcinogen
No data available

12. Ecological information

Ecotoxicity (aquatic and
terrestrial, where available):This material is not expected to be harmful to the ecology.Persistence and degradability:No data availableMobility in soil:No data availableOther adverse effects (such as
hazardous to the ozone layer):No data available

Ecological Toxicity Data

Chemical Component	Aquatic EC50 Crustacea	Aquatic ERC50 Algae	Aquatic LC50 Fish
No data available			

13. Disposal considerations Description of waste residues: Spent or discarded material is non-hazardous according to environmental regulations. Waste treatment methods (including packaging): Dispose of by incineration following Federal, State, Local, or Provincial regulations. 14. Transport information The DOT Classification for shipping is dependent on quantity, type of packaging (a kit may include other components) or

UN proper shipping name:	The DOT Classification for shipping is dependent on quantity,
	type of packaging (a kit may include other components), or method of shipment.

15. Regulatory information

TSCA Status: All components in this product are on the TSCA Inventory.

Regulated Components:

Chemical Component	CAS number and other unique identifiers	CERCLA	SARA EHS	SARA 313	California Prop 65
No data available					

16. Other information, including date of preparation or last revision.
