

Product Technical Bulletin

PRODUCT NAME:
Leather Conditioner

PART #:
58-QT
58

PACKAGE:
Quart
Gallon

PRODUCT CATEGORY:
Dressings & Protectants – Water Based

COLOR:
White

SCENT:
Leather

PRODUCT DESCRIPTION:

Leather Conditioner is a thick, lanolin-based conditioner formulated for use on all leather interiors. It can also be used on vinyl and plastic surfaces. Formulated to maintain the beauty and durability of all types of fine leather. Regular use can prevent cracking and extend the longevity of leather. Penetrates quickly to restore suppleness, gloss and texture. Non-greasy formula dries quickly and leaves a pleasant leather scent.

DILUTION RATIO:

Ready to Use

DIRECTIONS:

Shake Well. Thoroughly clean surface prior to application. Pour a small amount of Leather Conditioner onto an applicator pad. Apply to the surface using overlapping, circular motions. Remove excess with a soft, clean cloth. Repeat process if necessary. Do not apply to suede.

SURFACE APPLICATIONS:

Widely accepted as a treatment for the more common vegetable and chrome-tanned leather, there are certain leathers for which it is not suitable (e.g., napped leathers, such as suede or glove soft leather). NOTE: Leather that has become cracked from inadequate or inappropriate care cannot be restored to its original state by any available method.

ADDITIONAL USES:

Use on fine leather in RVs, motorcycle side bags and apparel. Use on fine leather in planes and yachts. Use on hard vinyl and plastic surfaces.

HELPFUL TIPS:

A little product goes a long way. Do not over-saturate leather. Use on cool surfaces.

SAFETY & HANDLING:

Safety Data Sheets can found online at automagic.com
